INDEX

ACCUMULATION of calcium in sea urchin larvae, 125.
Actin polymerization, G-ADP, thermodynamics of, 378 (abstract).
Action potentials in firefly flashing, 234, 251.
Activation of respiration in sea urchin sperm by egg water, 486.
Activity patterns of bees, 416.
Aequipecten, reproduction of, 146.
Agglutinins in marine invertebrates, 69.
ALFANO, J. A. See R. L. GREIF, 379 (abstract).
Alkaline phosphatase activity in Arbacia embryo, 367 (abstract).
Alkylating agents, use of in modification of insect reproduction, 270, 280.
Allatectomized Rhodnius, synthesis of protein and RNA in, 576.
ALLEN, R. D. Polarized light microscopy by means of a birefringence detection system and scanning arrangement, 355 (abstract).
ALLEN, R. D., W. R. PITTS, S. LLOYD AND T. REYNOLDS. Locomotion and cytoplasmic streaming in Allogromia, 370 (abstract).
ALLEN, R. D. See G. T. REYNOLDS, 388, 389 (abstracts).
Alpheus, sound production in, 311.
Amino acid, incorporation of into silkworm proteins, 165.
Amino acid uptake and incorporation by Asterias and Spisula eggs, 369 (abstract).
Amino acids, effects of on sea urchin sperm respiration, 486.
Amino acids in metabolism of Golfingia, 396 (abstract).
Amoebocytes of holothurians, 289.
Amphibian, oxygen consumption of, 523.
Amylases of Ochetostoma, 464.
Anatomy of chelae of snapping shrimp, 311.
Anatomy of Mya reproductive system, 344.
Anatomy of Palaemonetes eyestalks, 96.
Annelid, inhibition of regeneration in, 542.
Anthocidaris eggs, respiration of, 182.
Antibacterial activity of Golfingia coelomic fluid, 388 (abstract).
Antibacterial factor in blood of Phascolosoma, 382 (abstract).
Antigens in marine invertebrates, 69.
Antigens of Arbacia sperm, 363 (abstract).
Apis, collecting performance of, under laboratory conditions, 416.
Apohemocyanin content of adult Callinectes, 499.
Arbacia eggs, effect of ultraviolet light on, 302.
Arbacia sperm respiration, activation of by egg water, 486.
ARMSTRONG, C. M., AND L. BINSTOCK. Anomalous rectification in the squid giant axon injected with tetraethyl ammonium chloride, 370 (abstract).
ARNOLD, J. M. See G. SZABÓ, 393 (abstract).
Arrested gastrulae of Limnaea, produced by cobalt treatment, 508.
Artemia as food for postlarval penaeid shrimp, 188.
Artemia, genetics of, 431.
Artemia, growth efficiency in, 133.
Asterias embryos, radially oriented cleavage in, 582.
AUCLAIR, W., J. MANGAN AND D. MARSLAND. Localization of phosphatases in Arbacia eggs during first cleavage, 371 (abstract).
AUSTIN, C. R. See K. R. BARKER, 361; J. F. FALLON, 362; R. LAMBSON, 364 (abstracts).
Autoradiography of Rhodnius tissues, 556, 576.
Avidin, effect of on planarian regeneration, 534.
Aziridinyl chemosterilants, use of in modifying reproduction of flies, 270, 280.

BACTERIAL endotoxin, role of in extracellular coagulation of Limulus blood, 383 (abstract).
Balanus, mechanism of shadow reflex in, 470.
BANG, F. B. See J. LEVIN, 383; H. RABIN, 388 (abstracts).
BARKER, K. R., AND C. R. AUSTIN. Sperm morphology of Emerita, 361 (abstract).
Barnacles, mechanism of shadow reflex in, 470.
BARNWELL, F. H. Observations on daily and tidal rhythms in some fiddler crabs from equatorial Brazil, 399.
BARNWELL, F. H., AND F. A. BROWN, JR. Differences in the persistent metabolic rhythms of fiddler crabs from two levels of the same beach, 371 (abstract).
Bay scallop, reproduction of, 146.
Bees, collecting performance of, under laboratory conditions, 416.

BELAMARICH, F. A., R. W. ESKRIDGE AND D. M. SURGENOR. The effect of temperature on the in vitro coagulation of the blood of the smooth dogfish and the sea bass, 372 (abstract).
BELAMARICH, F. A. See R. W. ESKRIDGE, 377 (abstract).
BENNETT, M. F., AND M. RENNER. The collecting performance of honey bees under laboratory conditions, 416.
Bermuda snapping shrimp, sound production in, 311.
BINSTOCK, L. See C. M. ARMSTRONG, 370 (abstract).
"Biological clock" of honey bees, 416.
Bioluminescence of bacteria, binding of aldehyde in, 372 (abstract).
Bioluminescence of Gonyaulax, biological particles contributing to, 352 (abstract).
Bioluminescent bacteria, survival of dark and bright mutants of, 382 (abstract).
Bioluminescent cells, use of image intensifier tube in microscopic study of, 389 (abstract).
Bioluminescent dinoflagellates, 177.
Bioluminescent oxidation of reduced flavin mononucleotide, 352 (abstract).
Blastulae of Asterias, radially oriented cleavage in, 582.
Blood coagulation of dogfish and sea bass, effect of temperature on, 372 (abstract).
Blood group reactive substances in some marine invertebrates, 69.
Blood oxygenation apparatus, 374 (abstract).
Blood pressure, effect of on isolated tunicate heart, 358 (abstract).
Blood pressures of dogfish, 359 (abstract).
Blue crabs, hemolymph protein and copper concentrations of, 499.
Body size, effect of on oxygen consumption of neotenic salamanders, 523.
Bombyx, effect of thiourea on molting and pupation of, 61.
BORGMANN, M. See R. MILKMAN, 385 (abstract).
Bottom conditions, in relation to sound production of snapping shrimp, 311.
BOWEN, S. T. The genetics of Artemia. III., 431.
BOWNDS, D., L. GARRICK, R. MUESING, J. SPUDICH AND J. W. HASTINGS. The binding of aldehyde in the in vitro bacterial luciferase reaction, 372 (abstract).
BOWNDS, D. See L. GARRICK, 377 (abstract).
Brackish-water nereids, rate of salt loss in, 332.
Brazilian fiddler crabs, rhythms in, 399.
Breeding season of bay scallop, 146.
Breeding season of Mya, 344.
BREESE, W. P., R. E. MILLEMANN AND R. E. DIMICK. Stimulation of spawning in the mussel by kraft mill effluent, 197.
Brine shrimp as food for penaeid shrimp larvae, 188.
Brown bodies of holothurians, 289.
BROWN, F. A., JR. An orientational response to weak gamma radiation, 206.
BROWN, F. A., JR. See F. H. BARNWELL, 371 (abstract).
BUCK, J., J. F. CASE and F. E. HANSON, JR. Control of flashing in fireflies. III., 251.
BUCK, J. See J. CASE, 234.
BURBANCK, W. D. See D. FRANKENBERG, 81.
BURCH, H. B., AND P. STRITTMATTER. Enzyme patterns in eggs, developing embryos and adult tissues of Spisula, 373 (abstract).
BURKE, J. A., AND J. F. SPEAR. Some morphological and physiological effects of thalidomide on the embryos of Fundulus, 373 (abstract).
BURNETT, A. L., R. DAVIDSON AND P. WIERNIK. On the presence of a feeding hormone in the nematocyst of Hydra, 226.

CADMIUM ion, effect of on snail development, 508.
CALAPRICE, N. L. See J. CUSHING, 69.
Calcareous deposits in vertebrate labyrinths, 441.
Calcium, accumulation of in sea urchin larvae, 125.
Callinectes, hemolymph protein and copper concentrations of, 499.
Carassius-Misgurnus hybrid, fertilization in, 114.
Carbohydrases of Ochetostoma, 464.
Carboxylation enzymes, possible role of in planarian regeneration, 534.
Cardiac cycle of Mustelus, 393 (abstract).
CARLSTRÖM, D. A crystallographic study of vertebrate otoliths, 441.
CASE, J. F., AND J. BUCK. Control of flashing in fireflies. II., 234.
CASE, J. F. See J. BUCK, 251.
Cecropia silkworm, incorporation of labeled valine into proteins of, 165.
Celorhinus, blood group reactive substances in, 69.
Central nervous system, role of in control of firefly flashing, 234.
Cesium-137, orientation response of planarians to, 206.
CHASE, A. M. See L.-K. LI, 384 (abstract).
Chelae of snapping shrimp, anatomy of, 311.
Chemotaxis in Campanularia sperm, 386 (abstract).

CHENEY, R. H., AND C. C. SPEIDEL. Double diploid DNA hypothesis in relation to mid-mitotic radioresistance of zygotes of Arbacia, 354 (abstract).
CHENEY, R. H. See C. C. SPEIDEL, 354 (abstract).

Transfer of DNA, RNA and protein during vitellogenesis in Rhodnius, 556.
Transition metals, effect of on development of Limnaea, 508.
Trematode, digenetic, from intestine of Fundulus, life-cycle of, 393 (abstract).
Tritiated thymidine, use of in studying vitellogenesis in Rhodnius, 556.
Trophic tissues of Rhodnius, role of in vitellogenesis, 556.
TRUMP, G. See J. CUSHING, 69.
TUCKER, R. W., AND S. INOUÉ. Rapid exchange of D_2O and H_2O in sea urchin eggs, 395 (abstract).
TUCKER, R. W. See S. INOUÉ, 380 (abstract).
Tumor growth, effect of Mercenaria extracts on, 390 (abstract).
Tyrosinase activity in silkworm, inhibition of, 61.

UCA sp., rhythms in, 399.
Ultrasound, localized, effect of on cleavage of Arbacia eggs, 397 (abstract).
Ultraviolet irradiation, effect of on sea urchin eggs, 302.
Uptake of food in Artemia, 133.
Uptake of radiocalcium by sea urchin larvae, 125.
Urechis, blood group reactive substances in, 69.
Uricase instability without simultaneous change in activity, 384 (abstract).
Uterine response to 5-hydroxytryptamine in clasper-siphon secretion of Squalus, 384 (abstract).

VALINE, incorporation of into silkworm proteins, 165.
VAN HOLDE, K. E., AND S. C. HARRISON. Studies on the structure of Loligo hemocyanin. II., 376 (abstract).
VAN HOLDE, K. E. See L. B. COHEN, 375 (abstract).
VAN VUNAKIS, H. See L. LEVINE, 384 (abstract).

VANDERBERG, J. P. The role of the gonadotropic hormone in the synthesis of protein and RNA in Rhodnius, 576.
VANDERBERG, J. P. Synthesis and transfer of DNA, RNA and protein during vitellogenesis in Rhodnius, 556.
VANDERBERG, J. See H. LAUFER, 359 (abstract).
VATTER, A. E. See R. DESA, 352 (abstract).
VEEDER, C. See A. KEYNAN, 382 (abstract).
Venus, histology of reproductive system of, 344.
Versene, effect of on respiration of sea urchin sperm, 486.
Vertebrate otoliths, crystallographic study of, 441.
Viability of irradiated or frozen Artemia cysts, 431.
VILLEE, C. A., AND R. O. MOORE. Multiple molecular forms of malate dehydrogenase in separated blastomeres of Arbacia embryos, 395 (abstract).
VINCENT, W. S., R. MUNDELL AND C. HAMMOND. Relationships between nucleolar and ribosomal ribonucleic acids, 396 (abstract).
VIRKAR, R. A. Amino acids in the economy of the sipunculid worm, Golfingia, 396 (abstract).
Vitellogenesis in Rhodnius, 556.

WALLINE, J., AND L. NELSON. Occurrence of lactic dehydrogenase in starfish sperm, 369 (abstract).
Whale, blood group reactive substances in, 69.
WHEELER, G. E. Radially oriented cleavage in blastulae and gastrulae of the starfish, Asterias, 582.
WIERNIK, P. See A. L. BURNETT, 226.
WAILGRM, G. See G. SZABÓ, 360, 394 (abstracts).
WILLIAMS, D. E., AND C. B. METZ. Inhibition of fertilization by specific antibodies dissociated from sperm, 365 (abstract).
WILSON, W. L., AND R. M. SCHNITZLER. The effect on cleavage of Arbacia eggs of ultrasound applied to a small area of the cell surface, 397 (abstract).
WOJTCZAK, L. See W. CHMURZYŃSKA, 61.

X-IRRADIATION of Artemia, 431.
X-ray crystallographic study of vertebrate otoliths, 441.

YASUMASU, I., AND E. NAKANO. Respiratory level of sea urchin eggs before and after fertilization, 182.
Yolk deposition in Rhodnius oocytes, 556.
